# Inside the Sensory Room

Inside the Sensory Room, the museum may be a bit darker. It may be cold with music and other sounds. Other people may also be in the Sensory Room.

Some things in the Sensory Room are for touching. Some things are only for seeing or listening.

There will be some activities inside the Sensory Room that you can do. You can play with colorful pebbles and shapes on the light tables.

You can play with colorful light blocks.

If you need a break, you can sit quietly inside the Sensory Room.

You can also use talking voices while inside the Sensory Room.
